

PROGRESSION AGREEMENT 2020-21

Between Goldsmiths, University of London
and Laser Learning Awards

Goldsmiths' commitment

Goldsmiths is committed to promoting access and diversity and this is clearly reflected in the diversity of our student population. We have a strong tradition of recruiting mature students, with 31% of our undergraduate students aged over 21, and 24% over 25.

LASER is proud of its history of supporting education and training providers for over 27 years. LASER promotes widening participation, social inclusion, employer engagement and lifetime learning for all.

Goldsmiths has always valued the Access to HE Diploma as an academically strong qualification giving students a solid foundation for higher education study.

Goldsmiths is therefore delighted to present this agreement with LASER Learning Awards, which validates Access to HE Diplomas through the South East England region.

The offerings in the following tables are subject to an application being submitted via UCAS and a satisfactory personal statement relevant to the subject applied for. Goldsmiths reserves the right to ask for a new statement where necessary.

If the student has already completed their diploma or are doing a diploma in a subject not listed in the tables we would still be happy to consider their application. Please contact the Admissions team for further information.

BA History of Art			

SUPPORT FOR STUDENTS AND COLLEGES

Student Recruitment and Widening Participation staff from Goldsmiths will be available to Laser partner colleges to provide information, advice and guidance on the programmes available to study at Goldsmiths. Staff will be able to advise on progression routes, personal statements, HE choices, portfolio preparation and student finance.

As a partner institution, we will work with you to agree and select the best available combination of activities to best meet your access learners' requirements.

Opposite you will find a list of activities that form our current offer to schools and colleges. In addition, all students will have access to the Mature Students booklet, created to support mature students considering or entering Higher Education. This is available online and in paper copy.

Get in touch with outreach@gold.ac.uk

Talks and workshops

Our experienced and engaging team deliver talks and workshops on a range of subjects relating to higher education. These can be delivered in colleges, or as part of a bespoke visit to our campus.

Our range of talks and workshops includes:

- Choosing a university
- Choosing a course
- Student finance and budgeting
- The UCAS application
- Personal statements
- Studying at Goldsmiths
- Student life
- Studying in London

These workshops would normally last for around 45 minutes, and we are happy to discuss bespoke workshops and combining two or more sessions into a longer session.

The team also delivers dedicated Personal Statement support throughout the application process. We can provide workshops for groups of students at the beginning of the process as well as one-to-one consultation.

Goldsmiths offers a range of subject-based masterclasses ('GoldClasses') that give prospective students the opportunity to gain an in-depth understanding of teaching and learning at university level. Developed and delivered by leading academic staff, the sessions aim to stimulate enquiry, broaden knowledge of the subject area, and introduce students to a wider network of academics, undergraduate students and peers. Through this Progression Agreement, students attending a GoldClass can be introduced to a current Student Ambassador who has also come via an Access course to discuss their journey to HE.

Open Days

At our Open Days students will be able to:

- Discuss study options with academic staff
- Visit the dedicated Mature Student Zone, where they will receive tailored information and guidance and meet other mature students
- Go to course information sessions and sample lectures
- Tour Goldsmiths' lively, vibrant campus
- Get advice on financing their studies
- Experience what student life is like
- Ask current students about their experiences of university so far

Pre-Enrolment support for incoming Goldsmiths students

To ensure all Laser Access students feel fully supported and equipped to achieve their potential once they are confirmed as an incoming Goldsmiths student, they will be prioritised on the GoldStart transition programme.

GoldStart is an inclusive programme, designed to offer students the chance to:

- Get to know their department before they start their course
- Experience a sample lecture or seminar from their academic department
- Meet key academic staff
- Attend a bespoke session on Study Skills - designed specifically to support students coming from an Access course
- Meet key support teams, including staff from Student Wellbeing, Careers, the Students' Union, the Library and Academic Study Skills

Students who apply through this Progression Agreement will also be prioritised for the Student Ambassador Scheme, providing they are successful at the assessment day.
